A Note from the Support Desk

Automated backups are so convenient but should be checked annually.

**Do you know how to check your backups?
Have you made an off site archive lately?**

**JAM welcomes Imran Naveed
to the Customer Services team**

Having graduated in 2000, Imran comes to JAM Software with nearly a decade of IT experience, in programming, project management and technical customer services

Imran has been allocated the task of helping you check your automated backups. If you need help just give him a call to book a convenient time.
