Introducing JAM CustomDB—with customisable Surgical Audit Database

Wouldn't you just love it when you can store all your surgical information in a neat database? How about the fact that it's customisable according to your needs (and to the college's audit requirements)? And that it's expandable to link with your billing, diary and other system—now or in the future?

With over 21 years of experience and expertise in integrated patient medical record software, JAM can help make this a reality. Introducing *JAM CustomDB*—a powerful database with a sample surgical audit database, customisable by either yourself or with the help of JAM Technical Support.

Limited Time Only: Special trainee package —*Custom Surgical Audit DB + PMI = \$500 + GST (normally \$1,000)!!*
