↑ Search for patient by first name, surname, DOB or file number based on your patient database in MED PMI.

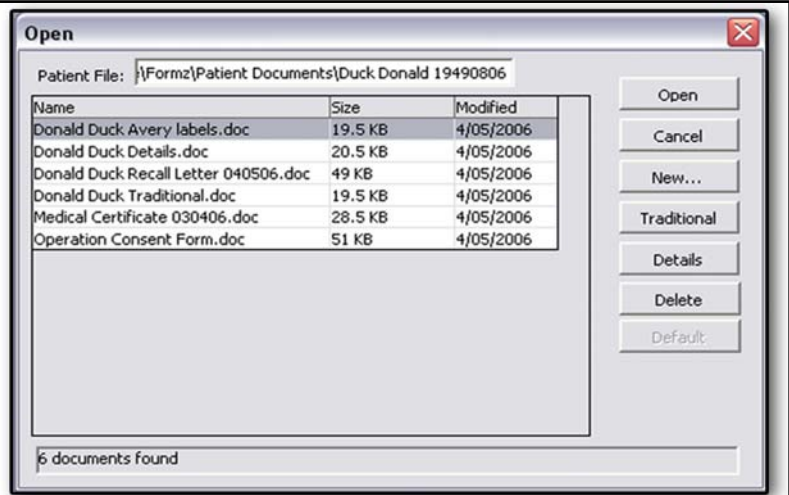

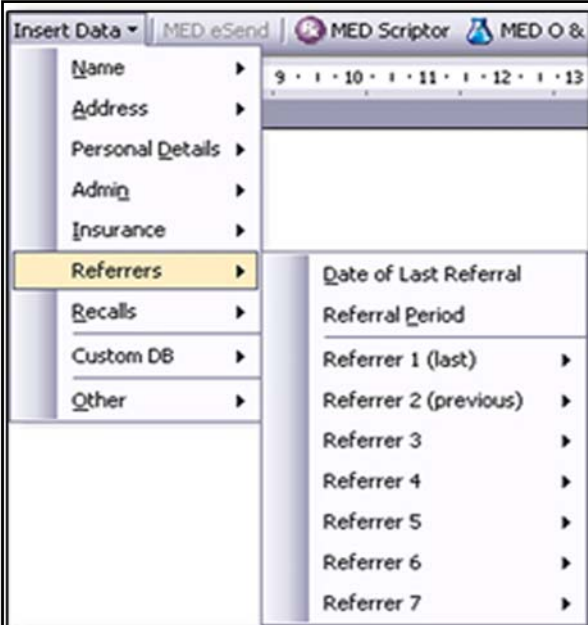

Key FORMZ Features:

- **Save time copying or retyping patient details** automatically inserted in *MED Formz* & formatted to your preferences.
- **Reduce update errors & ensure data consistency.** Only update any changes once in one location.
- **Save time typing the same words or information repeatedly.** 100s of easy-to-use, intuitive & customisable templates for letters, forms, labels, certificates & reports.
- **Very easily convert your current forms, letter or templates** into MED Formz. Create your own or use our built-in Microsoft® Word® back-end.
- **Replace physical filing cabinets.** Automatically save documents in individual patient folders.
- **Leave filing to MED Formz** with choice of filing system to suite your practice.
- **Easy data** retrieval from either your WorkList, PMI, Billing or use MED Formz inbuilt Find function.
- **Centralise all data.** Annotate & save patient's x-ray results, images, scans or any documents into one centralised location.
- **Improve report & letter quality** with Microsoft® Excel® to include spreadsheets & graphs in MED Formz documents, automatically updated as you change values.
- **Gap Calculator.** Quickly calculate out-of-pocket operation expenses & create quotations & Financial Consent forms based on your own private fee schedules and wording.
- **NEW!! MED O&R** & Custom DB (Surgical Audit)**.** View test results, or Operation Notes while in records, forms & letters.

Why should you choose MED Formz?

- **Very easy to use** with intuitive and **user friendly graphical interface**
- Developed by a medical doctor & a practice manager who understand your needs
- MED Formz **takes your word processing functions to the next level by using Microsoft® Word®** to integrate with and insert any data from *MED Billing & MED CustomDB*.
- This data can then be used in the **letters, forms, labels, reports** or any kinds of documents you wish to create in MED Formz.
- Move forward into **paperless office** era with complete & **integrated** MED Software
- Join the **hundreds** of satisfied MED Users and contribute towards **future developments** of MED Software through **feature requests** and **MED User Meetings**.
- **Excellent quality technical support**—from installation & training your staff to using it daily & upgrading, tech support is only a phone call away. Onsite visit can also be organised.

- **NEW!! Access M.E.D. Scriptor**** while working in any module.
- **Ready-made or custom labels** . Many retail labels come Word® compatible, or easily create labels to exactly match your label size,
- **Use MEDeSend** to securely send patient reports electronically to your referring doctors.** Recipients need to have proper login download information for security.
- **Print, email or fax directly from MED Formz** using Microsoft® Word® 2003 & your email account or fax line.
- **Built-in Spelling & Grammar Checker, Auto Text & Auto Correct** with Microsoft® Word®. Add or build your own dictionary of medical terminology.

Quickly & efficiently insert patients' personal, referring doctors and recall details from MED PMI or use the surgical data entered in MED Custom DB.

List a history of all correspondence, documents, letters, results, scans - virtually any document - for a particular patient. You can access these via Formz by typing the patient's name, from your WorkList / Waiting Rooms with a single-click, or from MED PMI's patient registration window.

- MED Formz allows you to create template documents from scratch or use industry standard templates to save time and avoid typing information repetitively.
- Templates are customisable and can include patients, referrers and guarantors' data from *MED PMI*.
- *Gap Calculator* is one popular example of over 50 different templates that come with *MED Formz*. ⇨
- Prepare an operation quote for your patients, with not only useful information on procedures, but also
 - surgeon's fees based on the particular item numbers that you select,
 - how much rebate they will receive from Medicare or health fund and calculate out-of-pocket expenses. ⇨
- Fees are automatically calculated from your selected base and private schedules using our *Gap Calculator* tool. You can use your own schedule or the standard 85% and 100% MBS fees. ⇨
- Automate isplay of 'cc' to one or multiple doctors. ⇨
- Electronically send the document via your email provider or using *MedeSend*— the secure way to electronically send *MED Formz* documents to referring General Practitioners. This service requires separate subscription. with *Medemail*. ⇨

Mr Donald Duck
4 Beachamp St
Marrickville, NSW 2204

Dear Mr Duck,

8413*
